

Hospital Sisters Health System Medical Group,

I am a member of Boilermakers Local 363, which is a member of the CIGNA health care network. CIGNA recently sent letters to our members informing us that **Hospital Sisters Health System (HSHS)** may leave the network if an agreement was not reached by February 29, 2020. **HSHS** is a big part of Southern Illinois families. So many of us rely on **HSHS** for medical care and losing this network of hospitals would impact us greatly, let alone the revenue it would cost your hospitals. We have over 450 members along with their families in this region that this would affect in their health care choice. I hope I can trust that you will keep us in mind and come to an agreement before the deadline.

Sincerely,
