#### Where is the job located:

Prairie State Generating Station is located in Marissa Illinois, 45 miles southeast of St. Louis MO.

Prairie State Energy Campus

1739 New Marigold Road

Marissa, IL 62257

Located in Washington County, Illinois, the Prairie State Energy Campus is a technologically advanced electric generation facility utilizing domestic Illinois coal resources from its adjacent underground mine to power its 1,600-megawatt power plant.

Since 2012, Prairie State has been providing base-load electricity on behalf of its not-for-profit public power owners to more than 2.5 million families across the Midwest.

Prairie State is a recognized leader in the coal-fired power generation industry and is dedicated to achieving its vision of becoming the best coal mine and coal-fired power plant in the country.

Founded in 1918, Hayes Mechanical is a pioneer in the boiler, construction, and repair industry with management now in the third generation of the original Dan Hayes Boiler Co. Through a steady, well-planned growth program, Hayes Mechanical has added piping and HVAC service Divisions.

Today, one hundred and five years later the industry has expanded greatly and so has Hayes Mechanical. With eight locations around the U.S., Hayes Mechanical can support our customers locally and nationwide.
